ATTENTION:

SUBJECT: Proposed Letter to the Administrator
for Federal Procurement Policy, OMB

Dave,

We have reviewed the proposed letter from the DCI to the Administrator for Federal Procurement Policy, OMB and would like to advise after consultation within the DDS&T that we concur completely in your proposed course of action. We consider the arguments valid, and definitely in keeping with the provisions of 50 USC A 403 (d) (3). We hope that this document is persuasive enough to permit the Agency to continue to conduct their acquisition policies within the intent of the proposed revision to OMB circular A76 without being burdened with the responsibility of complying with the letter of its implementation to the detriment of operational endeavors.
